

Rule 1: you are boss! The goal is to improve the course, by hearing out the students. The questions below are only guidelines; only the first one is important! Just gossip provocatively about the course :-)

Which course do you do?

- Possible answers are: ‘Arduino’, ‘Blender’, ‘Processing’, or ‘working in team’

How is the course?

What should always be in the course?

What is the best thing about the course?

What can be improved about the course?

What is the least fun of the course?

How are the booklets?

How can the booklets be improved?

How are the breaks?

How to improve the breaks?

How are the volunteers?

What could the volunteers do better?

- Arduino: Björn, Richèl
- Blender: Björn, Richèl
- Processing: Björn, Christoffer, Janne, Marie, Richèl
- Programming teams: Björn, Christoffer, Janne, Richèl,

Per volunteer (if the students do not know him/her, it's OK):

- How is he/she?
- What could he/she do better?

For the programming teams:

- How is your team leader?
- How can he/she improve?
- Do you use Discord?
- If yes, is it used well, or is it mostly a distraction?
- How could Discord usage be improved?

How are the students?

How could the students do better?

How is the amount of students?

Would we enjoy more students?

Would we enjoy more adult students?

How was the Hackathon?

What can be improved about the Hackathon?

Should we do Hackathon again next year?
